Monitoring protocol

[monitoraggio.lifeprepar.eu](http://monitoraggio.lifeprepar.eu)

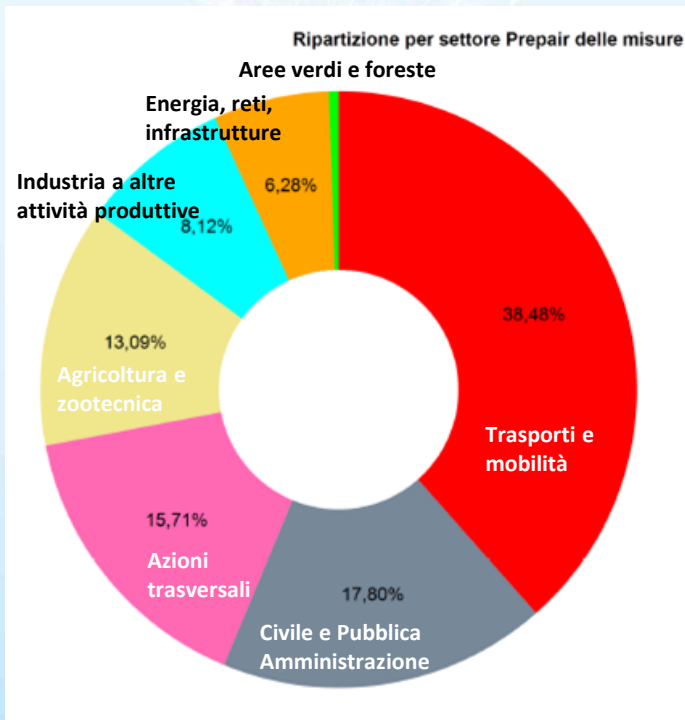

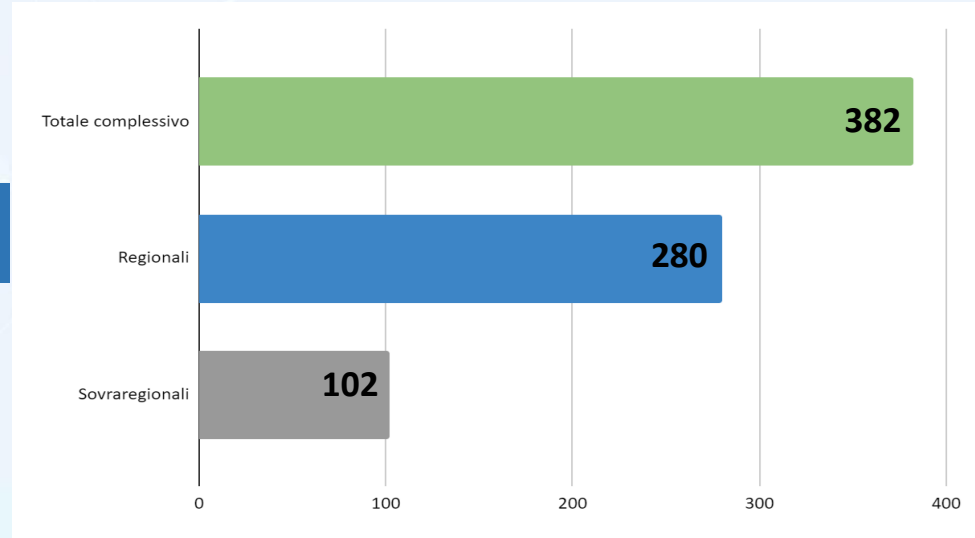

The adoption of a common language of classification and shared tools will allow us to evaluate and communicate the results achieved at Po Basin Area level - no longer only at regional level - in terms of concrete impacts on the territory

## Data set

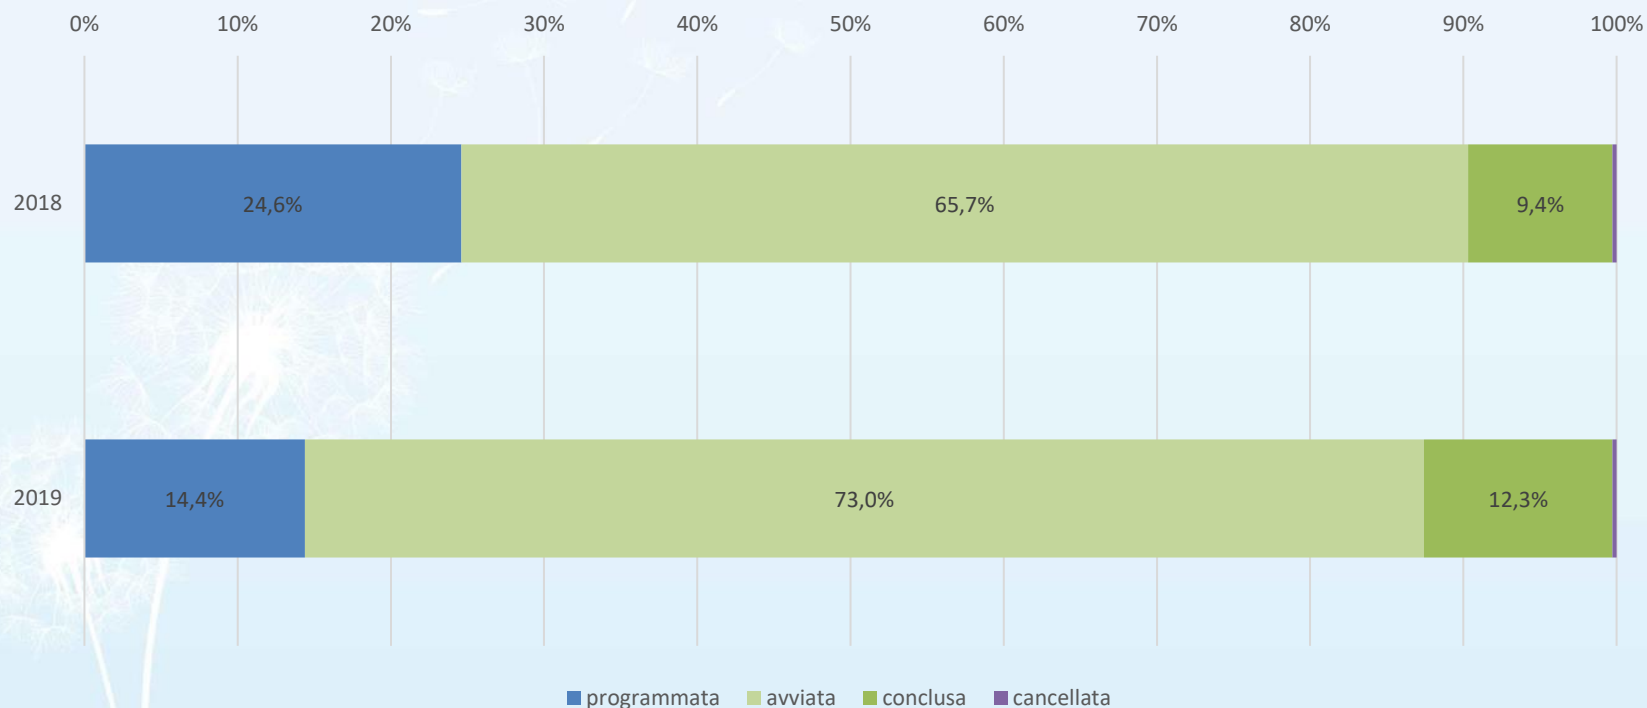

- Measures collected from all partner regions + Po Basin national agreement + PREPAIR
- Each Measures is characterized by
  - Reference territory;
  - Public body responsible for the Plan;
  - 4 different levels of structure of the reference plan;
  - PREPAIR catalogue code;
  - Description;
  - Result indicators planned by region.

## Territorial characterization

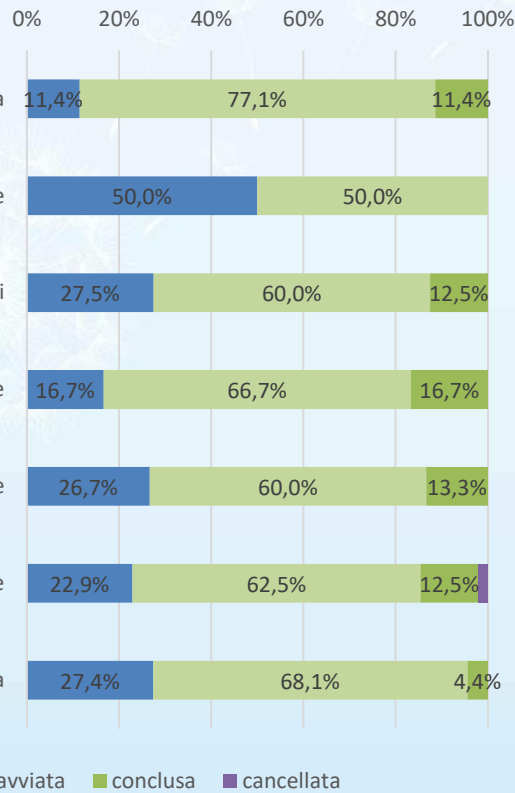

## Sectorial breakdown (total measures)

## State of implementation of the measures (Total measures)

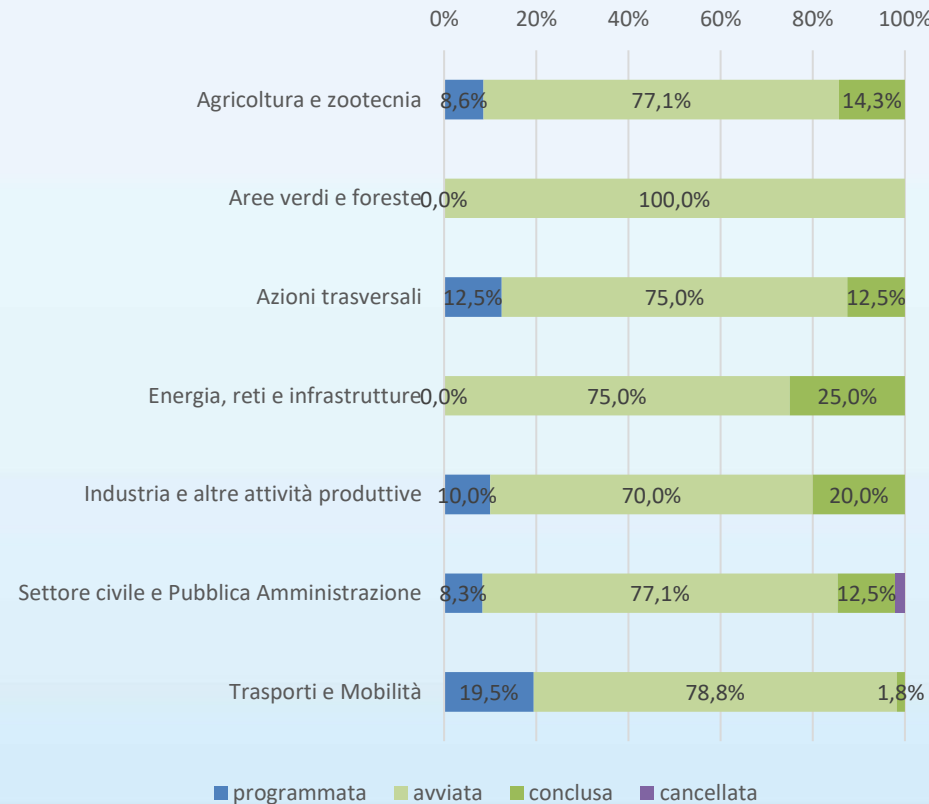

## State of implementation of the measures (Total measures per Prepair Sectors)

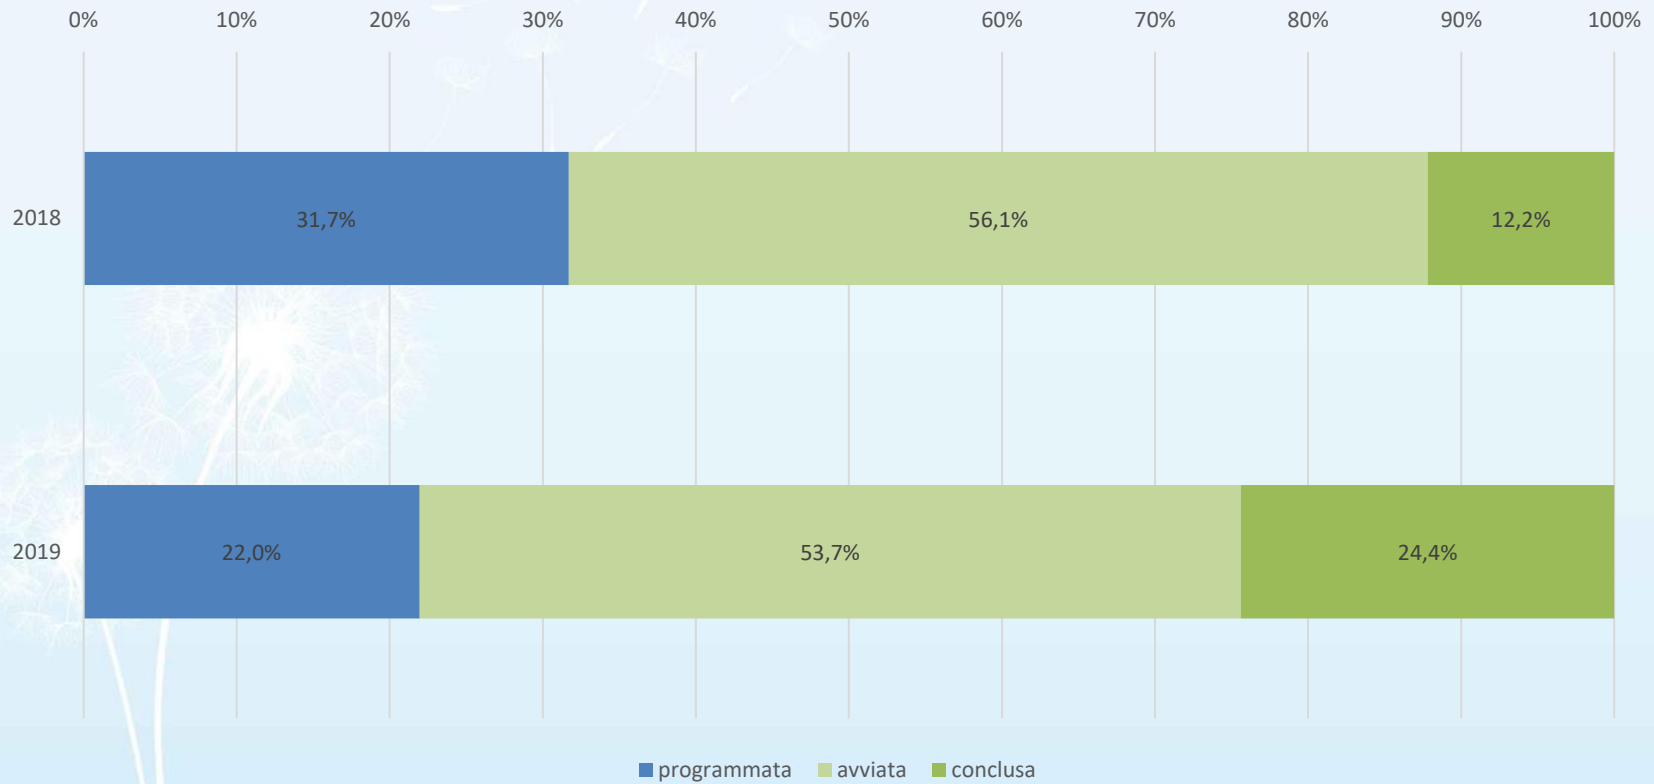

### 2018 Monitoring

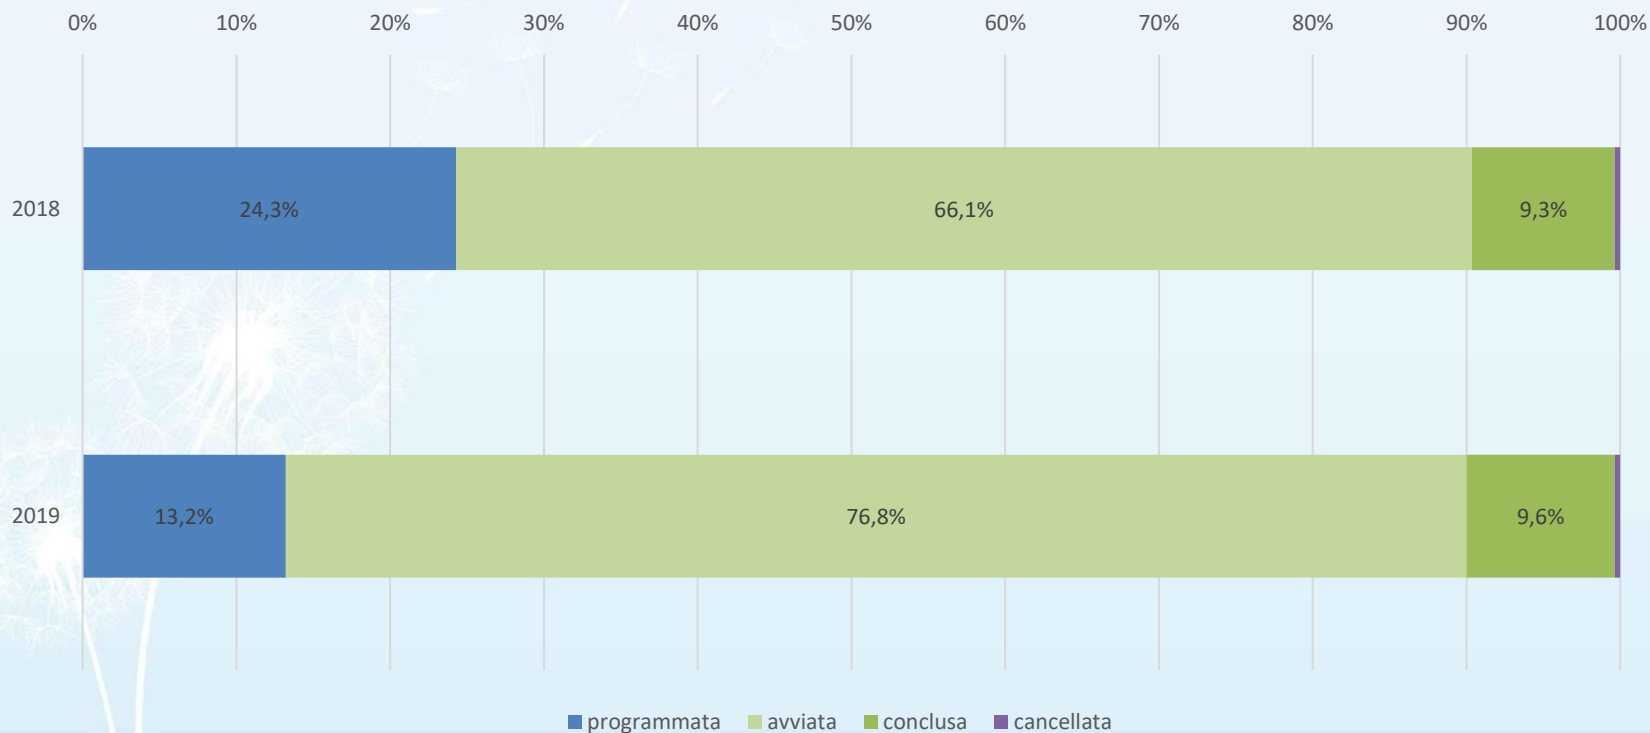

### 2019 Monitoring

## State of implementation of the measures Po basin agreement 2013 and 2017

## State of implementation of the measures Regional Air Quality Plans
