

Capacity building and awareness raising actions of the project PREPAIR

2nd MidTerm Conference— 6th October 2021

Katia Raffaelli, Project Manager

Regione Emilia-Romagna

Servizio Tutela e Risanamento Acqua, Aria e Agenti fisici

LIFE 15 IPE IT 013

PREPAIR supports the implementation of the Air Quality Plans

- The project PREPAIR aims to improve the air quality in the Po Valley and in Slovenia, according to the Directive 2008/50/CE. It supports the implementation of n. **7 regional Air Quality Plans in Italy** and of **the municipal Plans of Slovenia**
- The project results will affect the health and quality of life of about **28 million people living in a territory of 135,000 km²**
- The concrete actions implemented by PREPAIR act as **“multiplier” effect** on the effectiveness of the measures foreseen by the AQPs.

Integrated Projects shall aim towards the full implementation of the targeted plan or strategy. The IP shall include strategic actions to catalyse a process and mobilise supplementary commitments and funding that will lead, in due time, to the full implementation of the plan or strategy.

LIFE 15 IPE IT 013

Complementarity and synergy

- Today complementary actions amount at **more than 1.000 M€**

Cross-sector working groups

- Involve people in charge of the management of complementary actions and funds and in charge of other relevant policies
- Regional and provincial administrations guarantee the maintenance of the Cross-sector working groups also after the conclusion of the IP, in order to extend its activity to the next European programming period (2021-2027) and maintain integration with other relevant policies
